Parking the KLF

- Stop the vehicle on a level surface.

⚠️ WARNING

**HAZARD**
Parking on a steep incline.

**WHAT CAN HAPPEN**
May result in the vehicle overturning or rolling down the hill and causing an accident.

**HOW TO AVOID THE HAZARD**
Do not park on steep inclines. If you must park on a hill, place the vehicle diagonally so that it never faces uphill, downhill or sideways. Set the parking brake securely.

- When the engine has stopped, shift the transmission into 1st or SL (Super Low: KLF400 only) gear. Apply the parking brake to help prevent the vehicle from rolling.
- Remove the ignition key to prevent unauthorized use.

⚠️ WARNING

**HAZARD**
Parking near an appliance with a pilot light. Parking in a structure without ventilation.

**WHAT CAN HAPPEN**
Gasoline is extremely flammable and can be explosive under certain conditions. A fire or explosion can cause severe injury or death.

**HOW TO AVOID THE HAZARD**
Park the vehicle in a well ventilated area away from any source of flame or sparks. This includes any appliance with a pilot light.

⚠️ CAUTION

The brake light goes on whenever you apply the parking brake. If you leave the brake light on for a long time, the battery may become totally discharged. Whenever you leave the vehicle, turn off the ignition key.
