Antenna Flag

In hilly country, use an antenna flag so others can see you coming from the other side of a hill or sand dune. Take extra care when approaching blind hill tops and corners.

Traversing Hillsides

When riding across the side of a hill, keep your body weight toward the top of the hill. Avoid hills with slippery sides that will cause you to lose traction. Also avoid traversing hillsides covered with rocks or other obstacles which may cause you to lose your balance or tip over.

If the vehicle begins to tip, steer downhill if possible to regain control. If you discover that the vehicle is in danger of rolling over, dismount on the uphill side.
