BASIC SAFE DRIVING

Knowing and following these rules for safe operation will increase your satisfaction with your new Kawasaki vehicle.

Perform the Daily Safety Checks
Refer to the Daily Safety Checks section for a list of items to check each day before use. Habitual performance of these checks will help to insure safer, more reliable usage. Be sure that any irregularities found during these checks are corrected before operating the vehicle.

Drive Carefully and with Good Judgement
We want you to be satisfied with your new Kawasaki vehicle, so drive carefully, safely, and exercise good judgement. Practice basic maneuvers so you can drive confidently and safely.

Read the Owner’s Manual
Read and understand this Owner’s Manual. This is especially important for inexperienced drivers. Refer to this Owner’s Manual if you have any questions.

Off-Highway Use Only
This vehicle is not an all-terrain vehicle; it is designed and equipped to be a multiuse utility vehicle for off-highway use only. Operation on public roads is not recommended.

Operator’s Capacity
All operators should possess a valid driver’s license. Children may not have the skills and judgement necessary to operate this vehicle safely.

Never Drink and Drive
Alcohol and drugs impair your judgement and slow your reactions. Even drugs prescribed by a physician can be dangerous. Check with your doctor.

Dress Properly
As appropriate to operating conditions, wear an approved helmet, eye protection, and protective clothing. Proper clothing can make driving more comfortable and reduce the severity of injury in the event of an accident.
Wearing Seat Belt

The operator should wear the seat belt whenever the vehicle is operated. This will reduce the severity of injury in case of a sudden stop or collision.
Also, to reduce chance of injury, always keep arms and legs inside of cab frame while the vehicle is in motion.

Before Starting the Engine

Three “musts” before starting the engine are:
1) Apply the parking brake,
2) Put the gear shift lever in the N(neutral) position,
3) Check the throttle pedal for proper operation. It should return to its rest position when released.

Use the Parking Brake

Always apply the parking brake before getting out of your vehicle.

Obey Local Laws

Know and obey all laws and regulations governing the use of off-highway vehicles in your area. Respect private property. Always try to preserve nature and the environment.

Refueling

Before refueling the vehicle, shut the engine off and make sure the area is well ventilated and free of any source of flame or sparks. Gasoline is very flammable.

Tire Air Pressure

Tire inflation and type can affect the vehicle’s handling characteristics. Check the tire pressure frequently. Use only the recommended tires for replacement.
