CAUTION

Do not shift from F(forward) to R(reverse) and vice versa when the vehicle is moving or with the engine running above idling speed, or the transmission could be damaged.

Differential Shift Lever:

This vehicle is equipped with a dual-mode differential. The differential shift lever is located at the left side of the seat. Move the shift lever up or down as indicated on the lever.

Refer to the “Shifting the Differential” section in the “How to Operate” chapter.

Parking Brake Lever

The parking brake lever is located at the left side of the seat. Pull the lever up and to the rear to apply the parking brake.

To release, push in and hold the knob on the end of the lever and push the lever all the way down. Spring pressure helps return the lever to the released position.

A. Parking Brake Lever

WARNING

Be sure to apply the parking brake before leaving the vehicle. If the vehicle should move, it might be damaged or cause injury.
