**Seat**

The seat can be raised for vehicle maintenance and adjustment.
- Pull up on the rear edge of the seat so the seat rests against the stopper.

![Seat image](image)

A. Seat (Raised position)

**Seat Belt**

The vehicle is equipped with lap-style seat belts for both the operator and passenger. Always wear the seat belts when operating and riding the vehicle.

A. Seat Belt
B. Latch Plate
C. Buckle

**WARNING**

Seat belts reduce injury. Always wear your seat belt. The lap-style seat belt may not provide adequate protection for small children. Special care is recommended when carrying a child passenger.
