USING POWER-TAKE-OFF (PTO)

NOTE: Tractor engine will not start if PTO lever(s) are in ENGAGED position.

⚠️ CAUTION: Always keep master shield (A) in place.
- The master shield is hinged and can be tipped up for easier access to PTO shaft when connecting equipment to powershaft.
- Always keep master shield down when PTO is being used.
- The tractor can be equipped with OPTIONAL mid PTO.
- Always keep mid PTO guard (B) in place when mid PTO is not in use.

ENGAGING AND DISENGAGING PTO (OPERATOR ON THE SEAT)

To ENGAGE PTO (operator on the seat):
- Push clutch pedal all the way down.
- Pull rear PTO lever (A) and/or OPTIONAL mid PTO lever (B) up.
- Slowly release clutch pedal to ENGAGE PTO.

To DISENGAGE PTO (operator on the seat):
- Push clutch pedal all the way down.
- Push PTO lever(s) down.
- Remove foot from clutch pedal.
